

## Beyond the Cough: Modern Approaches to Lower Respiratory Care

 Darjeeling, West Bengal

 3<sup>th</sup> - 5<sup>th</sup> April 2026

## Welcome Letter

*Dear Doctor,*

Warm greetings from **CPD Gurukul**.

We are pleased to invite you to a focused Continuing Professional Development program titled: **Beyond the Cough: Modern Approaches to Lower Respiratory Care**.

This destination CPD program will take place in the scenic hill station of **Darjeeling, West Bengal**, from **3–5 April 2026**, with the **scientific academic session scheduled on 4 April 2026**.

Lower respiratory tract infections continue to represent a major clinical challenge in routine practice. Increasing antimicrobial resistance, evolving diagnostic technologies, and diverse clinical presentations require physicians to adopt **modern, evidence-based approaches to respiratory care**.

This CPD program will explore **diagnostic innovations, updated therapeutic strategies, and practical case-based insights** to help physicians deliver more precise and effective respiratory care.

Set against the serene Himalayan landscape of **Darjeeling**, the program also offers a unique opportunity for **peer exchange, professional networking, and meaningful clinical dialogue in a relaxed environment**.

We look forward to welcoming you for an enriching academic and experiential CPD program.

Warm regards,

**Dr. Sunil Pandey**  
Director – Medical Affairs

## Academic Focus of the CPD

This program is designed to bridge the gap between **modern respiratory science and real-world clinical practice**.

Key academic themes include:

- Modern diagnostic tools for respiratory infections
- Differentiating acute, chronic, and atypical LRTI presentations
- Evidence-based treatment strategies for respiratory infections
- Rational antibiotic use and antimicrobial stewardship
- Risk stratification and patient-tailored respiratory care

## CPD Significance

**Clinical Relevance:** Focuses on practical strategies for managing respiratory infections in daily practice.

**Therapeutic Insight:** Clarifies treatment approaches for bacterial, viral, and mixed respiratory infections.

**Clinical Confidence:** Strengthens the physician's ability to apply updated respiratory care guidelines.

**Peer Learning:** Encourages collaborative learning through case discussions and clinical exchange.

## Agenda

| Time           | Session                                                                   |
|----------------|---------------------------------------------------------------------------|
| 7:00 – 7:10 PM | Welcome Address and Program Introduction                                  |
| 7:10 – 7:40 PM | Beyond the Cough Modern Approaches to Lower Respiratory Care              |
| 7:40 – 8:10 PM | Case-Based Panel Discussion Managing Complexity in Respiratory Infections |
| 8:10 – 8:30 PM | Open Forum Clinical Q&A and Peer Dialogue                                 |

## Limited Seats – Book Early!

| Registration Fees |                                    |                             |
|-------------------|------------------------------------|-----------------------------|
| Category          | Up to 20 <sup>th</sup> March, 2026 | Spot                        |
| Delegate          | INR 8,500 inclusive of GST         | INR 10,000 inclusive of GST |
| Student           | INR 6,500 inclusive of GST         | INR 8,000 inclusive of GST  |

### Enriched Destination Experience

Beyond academic learning, this CPD program offers physicians a destination learning experience in the Himalayan hills of Darjeeling.

Participants will enjoy:

- Focused academic discussions in a peaceful environment
- Informal networking with physicians from across regions
- Meaningful peer interaction outside the lecture hall
- A refreshing academic retreat in the mountains

### Networking and Peer Exchange

The three-day program allows physicians to connect beyond the formal scientific session.

Highlights include:

- Informal faculty-delegate discussions
- Cross-regional exchange of clinical insights
- Peer dialogue on real-world respiratory cases
- Professional networking among physicians from different specialities
