RESPICARE SERIES

Smarter Antibiotic Strategies in Respiratory Tract Infections

A Continuing Professional Development (CPD) Initiative

12th - 13th December 2026

Sheraton Grand Palace, Indore, Madhya Pradesh

Welcome Letter

Dear Doctor,

Warm greetings from the **Association for Advanced Medical Skill & Specialty (AAMSS)**.

The Association for Advanced Medical Skill & Specialty (AAMSS) is delighted to welcome you to the **RespiCare Series – Smarter Antibiotic Strategies in Respiratory Tract Infections**, a focused Continuing Professional Development (CPD) initiative dedicated to strengthening evidence-based antimicrobial prescribing and improving clinical outcomes in patients with respiratory tract infections.

Respiratory tract infections remain among the most common reasons for outpatient consultations and antibiotic prescriptions across India. Although the majority of infections can be effectively managed with evidence-based antimicrobial therapy, inappropriate antibiotic selection, rising antimicrobial resistance, delayed diagnosis, and irrational prescribing continue to compromise patient outcomes.

Primary care physicians, pulmonologists, consulting physicians, and internal medicine specialists remain central to ensuring rational antimicrobial use. Early diagnosis, appropriate clinical assessment, prudent antibiotic selection, and adherence to antimicrobial stewardship principles are fundamental to reducing resistance while improving therapeutic success.

Hosted at **Sheraton Grand Palace Indor**e, this academic programme combines scientific excellence, collaborative learning, and professional networking within a structured Continuing Professional Development framework.

This educational initiative has been designed to facilitate meaningful scientific discussions, expert-led presentations, and interactive case-based learning that participants can immediately incorporate into routine respiratory infection management.

We look forward to your valuable participation in this important academic initiative.

Warm regards,

Dr Nandkishor V. Shingne
President
Association for Advanced Medical Skill & Specialty (AAMSS)

Academic Importance of the Meeting

Respiratory tract infections continue to account for a substantial proportion of infectious disease consultations in both primary and specialty practice. Increasing antimicrobial resistance, evolving bacterial epidemiology, and changing susceptibility patterns demand continuous updating of prescribing practices.

The RespiCare Series has been developed to support physicians in translating current evidence into practical antimicrobial decision-making through structured scientific discussions, evidence-based treatment pathways, and real-world clinical learning.

The programme focuses on strengthening physicians' confidence in differentiating bacterial from viral infections, selecting appropriate empirical therapy, implementing antimicrobial stewardship principles, and improving patient outcomes.

Key Areas of Academic Focus

- Rational antibiotic prescribing
- Differentiating bacterial and viral respiratory infections
- Community-acquired respiratory infections
- Antimicrobial stewardship
- β-lactamase mediated resistance
- Appropriate oral antibiotic selection
- Treatment optimisation
- Prevention of antimicrobial resistance
- Improving patient adherence
- Evidence-based outpatient management

Why This Meeting Matters

- **Clinical Relevance**

  Addresses one of the most common infectious diseases encountered in routine outpatient practice.

- **Practical Learning**

  Provides evidence-based antimicrobial strategies with immediate clinical applicability.

- **Peer Learning**

  Encourages collaborative discussion among practising physicians.

- **Clinical Confidence**

  Strengthens physicians' confidence in rational antibiotic prescribing.

- **Continuing Professional Development**

  Supports lifelong evidence-based medical education.

Agenda

7:00 PM – 7:10 PM

Welcome Address & Introduction to RespiCare Series

7:10 PM – 7:40 PM

Smarter Antibiotic Strategies in Respiratory Tract Infections

7:40 PM – 8:10 PM

Optimising Oral Antibiotic Selection Through Antimicrobial Stewardship

8:10 PM – 8:30 PM

Expert Panel Discussion, Interactive Q&A & Closing Remarks

Limited Seats – Book Early!

Registrations will be accepted on a **first-come, first-served basis**. Early registration ensures accommodation preference and confirmed participation privileges for the CPD program scheduled from **12th-13th December 2026 at Sheraton Grand Palace, Indore, Madhya Pradesh.** with the scientific session on **13th December 2026.**

Registration Fees		
Category	**Up to 1st December 2026**	**Spot**
Delegate	**INR 4,500 inclusive of GST**	**INR 5,000 inclusive of GST**
Student	**INR 4,000 inclusive of GST**	**INR 4,500 inclusive of GST**

Delegate Participation Benefits

Registered delegates will receive:

- Delegate scientific kit and educational resources
- Access to all scientific sessions
- Participation in expert panel discussions
- Interactive case-based learning
- Networking opportunities with faculty and fellow clinicians
- Hospitality during the scientific programme
- Post-event scientific highlights and educational resources

About AAMSS

AAMSS is a dedicated educational platform committed to advancing **Continuing Professional Development (CPD)** for healthcare professionals across India.

By integrating evidence-based clinical learning with skill-building in leadership, communication, and practice improvement, AAMSS supports doctors in strengthening both medical expertise and overall professional competence required in today's evolving clinical environment.

Our Initiatives Include

- CME and CPD programs focused on real-world cardiovascular and metabolic care
- Expert faculty engagement and advisory-driven content
- Knowledge-sharing forums encouraging peer learning
- Academic collaborations with hospitals and medical associations
- Practical learning modules designed for immediate clinical application

Each CPD activity is designed to improve patient care, reinforce physician identity, and elevate standards of clinical excellence.

AAMSS is more than a platform. It is a commitment to developing doctors who lead, influence, and innovate responsibly.
